Research Clusters

The Academy has created some clusters to better describe submitted research projects. This will aid in a more streamlined student recruitment process and other benefits for categorising the research that is undertaken at The Academy.

- Material Science/Engineering (including Nano, Metallurgy)
- Energy, Green Chem, Chemistry, Catalysis, Reaction Eng
- Math, CFD, modelling, Manufacturing
- CSE, IT, Optimization, Data, Sensors, Systems, Signal Processing, Control
- Earth Sciences and Civil Engineering (Geo, Water, Climate)
- Bio, Stem Cells, Bio Chem, Pharma, Food
- Semi-Conductors, Optics, Photonics, Networks, Telecom, Power Eng
- Design, HSS, Management
